I. TITLE: Mobile and Web Programming

II. COURSE DESCRIPTION AND PREREQUISITE(S): A course to emphasize the development of software applications on particular hardware platforms. Types of platforms covered include: Web platforms, mobile platforms, and game platforms. Course will cover currently relevant platform languages such as Ruby and HTML5, Java Script, and PHP. For Web platforms emphasis will be on software as a service (SaaS). Issues for mobile platforms will include wireless communication, location-aware applications, and performance/power tradeoffs. For game platforms, emphasis will be on choice of programming language, cross-platform development and game platform constraints.

Prerequisite(s): CSC 325.

III. COURSE OBJECTIVES: At the successful completion of this course, the student should be able to:

- A. Design and implement an application on a selected mobile platform
- B. Publish an application of their own creation on the selected platform
- C. Develop/modify a Web page to provide a dynamic application and/or Web service application
- D. Implement a Web application to make it accessible by any remote platform
- E. Understand and manage issues of security on a Web based application

IV. CONTENT OUTLINE: See the textbook PDF on the course web page.

V. **INSTRUCTIONAL ACTIVITIES:** Our classroom time will usually be spent in discussion of the major points raised in the textbook material, using questions from the end of each chapter to guide our discussions. **You are expected to have read the material prior to class** in order to contribute to the class discussion.

VI. **FIELD, CLINICAL, AND/OR LABORATORY EXPERIENCES:** None.

VII. **TEXT(S) AND RESOURCES:** See the textbook PDF online.

VIII. **EVALUATION AND GRADING PROCEDURES:**

Mobile Programming Assignments	50%
Web Programming Assignments	50%

This is tentative and subject to changes as announced in class.

A numerical score will be computed based upon the above weights and a letter grade assigned according to a 10-point grading scale. I reserve the right to adjust this scale if the class average is either very high or very low.

IX. **ATTENDANCE POLICY:** You are expected and strongly encouraged to attend class regularly and on time in order to gain maximum benefit from the course. Class attendance will be checked and will be an explicit factor in the course grade as reflected in the class participation component. You are responsible for all material missed due to class absences. *Students are expected to adhere to the MSU Attendance Policy on page 10 in the 2014-2015 MSU Bulletin.*

X. **ACADEMIC HONESTY POLICY:**

Murray State University takes seriously its moral and educational obligation to maintain high standards of academic honesty and ethical behavior. Instructors are expected to evaluate students' academic achievements accurately, as well as ascertain that work submitted by students is authentic and the result of their own efforts, and consistent with established academic standards. Students are obligated to respect and abide by the basic standards of personal and professional integrity.

Violations of Academic Honesty include:

Cheating - Intentionally using or attempting to use unauthorized information such as books, notes, study aids, or other electronic, online, or digital devices in any academic exercise; as well as unauthorized communication of information by any means to or from others during any academic exercise.

Fabrication and Falsification - Intentional alteration or invention of any information or citation in an academic exercise. Falsification involves changing information whereas fabrication involves inventing or counterfeiting information.

Multiple Submission - The submission of substantial portions of the same academic work, including oral reports, for credit more than once without authorization from the instructor.

Plagiarism - Intentionally or knowingly representing the words, ideas, creative work, or data of someone else as one's own in any academic exercise, without due and proper acknowledgement.

Instructors should outline their expectations that may go beyond the scope of this policy at the beginning of each course and identify such expectations and restrictions in the course syllabus. When an instructor receives evidence, either directly or indirectly, of academic dishonesty, he or she should investigate the instance. The faculty member should then take appropriate disciplinary action.

Disciplinary action may include, but is not limited to the following:

- 1) Requiring the student(s) to repeat the exercise or do additional related exercise(s).

2) Lowering the grade or failing the student(s) on the particular exercise(s) involved.

3) Lowering the grade or failing the student(s) in the course.

If the disciplinary action results in the awarding of a grade of E in the course, the student(s) may not drop the course.

Faculty reserve the right to invalidate any exercise or other evaluative measures if substantial evidence exists that the integrity of the exercise has been compromised. Faculty also reserve the right to document in the course syllabi further academic honesty policy elements related to the individual disciplines.

A student may appeal the decision of the faculty member with the department chair in writing within five working days. Note: If, at any point in this process, the student alleges that actions have taken place that may be in violation of the Murray State University Non-Discrimination Statement, this process must be suspended and the matter be directed to the Office of Equal Opportunity. Any appeal will be forwarded to the appropriate university committee as determined by the Provost.

XI. NON-DISCRIMINATION POLICY STATEMENT: Murray State University endorses the intent of all federal and state laws created to prohibit discrimination. Murray State University does not discriminate on the basis of race, color, national origin, gender, sexual orientation, religion, age, veteran status, or disability in employment, admissions, or the provision of services and provides, upon request, reasonable accommodation including auxiliary aids and services necessary to afford individuals with disabilities equal access to participate in all programs and activities.
