

Are you interested in undergraduate research that combines biology and mathematics? Are you interested in the possibility of a \$7000 Fellowship?

September 22, 2008 at 3:00 PM

Room 1119 of the new Biology Building.

If your answers to the above questions are "Yes!!!", there are Undergraduate Research Opportunities available in the BioMaPS (Biology and Mathematics in Population Studies) program.

- Faculty members from the Departments of Biology and Mathematics & Statistics, along with students (biology and math majors) currently involved in the BioMaPs program, will be there to share more information about the BioMaPs project and answer your questions.
- You may also contact Dr. Renee Fister ([renee.fister@murraystate.edu](mailto:renee.fister@murraystate.edu), 809-2491, 6C-5 Faculty Hall) for more information

BioMaPS is funded by the National Science Foundation (DMS # 0531865)
