

THE CONFLUENCE OF BIOLOGY & MATHEMATICS IN THE COMMONWEALTH

May 16-17, 2008 (Friday/Saturday)
Murray State University, Murray KY

Purpose: This two-day conference will give undergraduates and their professors involved in biology and mathematics a chance to meet, learn some important tools in biomathematics research, and share their results and future plans in biomathematics research.

Activities will start at noon on Friday and include:

- Plenary Speakers
- Undergraduate Poster Session
- A nice spring afternoon in Land Between the Lakes National Recreational Area

Speakers:

- Dr. John Jungck (Biology Department, Beloit College; BioQUEST Curriculum Consortium)
- Dr. Andy Long (Department of Mathematics, Northern Kentucky University)
- Dr. Christopher Mecklin (Department of Mathematics & Statistics, Murray State University)
- Housing will be available for 30 students (one night; double occupancy) on a first-come, first-served basis.
- Registration available at the website below.
